Date:		Signature:		
Personal information cont	ained in this form is collecte	ed under the authority of subsection	n 8(1.1) of the <i>Buildina Co</i>	de Act, 1992, and will be used in the

administration and enforcement of the Building Code Act, 1992. Questions about the collection of personal information may be addressed to the Chief Building Official of the Township of West Lincoln.

Prohibited Uses

Unless otherwise specified in the Township's Zoning By-law, the following uses are prohibited in any zone

- a) Any use that is not specifically defined and listed in the permitted uses of a zone or permitted by the general provisions of the Zoning By-law.
- b) The refining, storage or use in manufacturing of coal oil, rock oil, water oil, naphtha, benzene, dynamite, dualine, nitroglycerin, or gunpowder, except where specifically permitted for commercial purposes. This provision shall not apply to prevent the above ground storage of such substances by a farmer, where such storage is incidental and accessory to a permitted agricultural use, or the use of natural gas, propane or fuel oil for purposes such as heating and cooking, in conjunction with any permitted uses.
- c) The tanning or storage of uncured hides or skins.
- d) The boiling of blood, tripe, or bones for commercial purposes.
- e) The manufacturing of glue or fertilizers from dead animals or from human or animal waste.
- f) A livestock yard, livestock exchange, or dead stock yard.
- g) The extracting of oil from fish.
- h) Keeping or raising of any livestock, exotic bird, reptile or wild animal including tamed or domesticated wild animal or exotic bird or reptile on any residential lot or in any building or structure in a Residential Zone, but this shall not prevent the keeping of up to three (3) of any type of household pet, such as dogs, cats, hamsters, mice, rabbits, turtles.
- A junk yard, salvage yard, motor vehicle wrecking yard, or the collections, storage or sale of junk, salvage, partially or completely dismantled motor vehicles or trailers, or parts of motor vehicles or trailers.
- j) A track for the driving, racing or testing of any motorized vehicle.
- k) A disposal site for solid waste.
- I) Mobile homes, motor vehicles, or recreational vehicles and trailers occupied as a permanent residence.
- m) Locating or storing on any land for any purpose whatsoever any disused railroad car, street car body, truck body, motor vehicle body, or trailer without wheels whether or not the same is situated on a foundation.
- n) Locating or storing pre-fabricated shipping containers.
- Outside storage of road salt, road sand or other de-icing materials at a scale or in a manner that could contaminate land or water.
- p) Adult entertainment establishments.
- g) Obnoxious uses as defined in Part 2 of the Township's Zoning By-law.

Completing this Form

B. Compliance options

Indicate the compliance option being used.

- <u>SB-12 Prescriptive</u> requires that the building conform to a package of thermal insulation, window and mechanical system efficiency requirements set out in Subsection 3.1.1 of SB-12. Energy efficiency design modeling and testing of the build is not required under this option. Certain Trade-Off options are permitted however when used, applicable airtightness targets in Table 3.1.1.4.A must be met.
- <u>SB-12 Performance</u> refers to the method of compliance in Subsection 3.1.2 of SB-12. Using this approach the designer must use recognized energy simulation software (such as Hot2000 V10.51 or newer), and submit documents which show that the annual energy usage of the building as proposed is equal to or less than a referenced prescriptive building design package.
- <u>Energy Star®</u> houses must be designed to Energy Star® requirements and be verified on completion by a licensed energy evaluator and / or service organization. The Energy Star BOP form must be submitted with the permit documents.
- R-2000® houses must be designed to the R-2000 Standard and verified on completion by a licensed energy evaluator and / or service organization. The HOT2000 report must be submitted with the permit documents.

C. Project design conditions

- Windows, Skylights and Glass Doors: If the ratio of total gross area of windows, sidelights, skylights, glazing in doors and sliding glass doors to
 the total gross area of walls is more than 17%, higher efficiency glazing is required. If the ratio is more than 22% the SB-12 Prescriptive option
 may not be used. The total area is the sum of all the structural rough openings. Some exceptions apply. Refer to 3.1.1.1 of SB-12 for further
 details
- Fuel Source and Heating Equipment Efficiency: The fuel source and efficiency of the proposed heating equipment must be specified to determine which SB-12 Prescriptive compliance package table applies.
- Other Building Conditions: These construction conditions affect SB-12 Prescriptive compliance requirements.

D. Thermal Insulation, E. Windows and Doors, F. Mechanicals

Requires completion of the table to identify the proposed RSI or R-value and energy efficiency ratings for various assemblies, windows and
doors and mechanicals where they may apply to the house design.

G. Energy Efficiency Substitutions - PRESCRIPTIVE METHOD ONLY

This section is applicable for use with the prescriptive method only. When using the prescriptive method, the use of specific substitutions are permitted provided other design elements satisfy increased design standards. Additional supporting documentation may be requested by the Chief Building Official where required to confirm compliance with the increased design standards. The air leakage rates provided in SB-12 3.1.1.4 and associated tables, are not requirements. The provided rates are voluntary provisions and are applicable only when it is intended to claim airtightness credits as substitutions for other required provisions. The table provides airtightness targets in three different metrics; ACH, NLA, or NLR. Any one of these can be used. Table SB-12 3.1.1.4.A is provided below for reference.

	airtightness targets					
building type	ACH @ 50Pa	NLA @ 10 Pa		NLR @ 50 Pa		
	ACH @ 50Pa	cm ² / m ²	in ² / 100ft ²	L/s/m ²	cfm/ft ²	
detached dwelling	2.5	1.26	1.81	0.93	0.18	
attached dwelling	3.0	2.12	3.06	1.32	0.26	

H. Design Verification – PERFORMANCE METHOD ONLY

• This section is applicable for use with the performance method only. When using the performance method, the information requested in this section provides the necessary values to confirm meeting or exceeding the designed standards of the compared prescriptive package. The air leakage rates of Table SB-12 3.1.2.1 (shown below), are not requirements. The provided rates are intended for use as reference values for annual energy simulations, should such simulations be required for the chosen method. They can be used as a default value for both reference and proposed buildings or, where airtightness credits are claimed, the values in the table can be used as the inputs for the referenced building. The table provides leakage rates in three different metrics; ACH, NLA, or NLR. Any one of these can be used.

building type	air leakage			
building type	ACH @ 50Pa	NLA @ 10 Pa	NLR @ 50 Pa	
detached dwelling	3.0	2.12 cm ² / m ²	1.32 L/s/m ²	
attached dwelling	3.5	2.27 cm ² / m ²	1.44 L/s/m ²	

I. Energy Star® or R-2000®

• This section is applicable for use with the other applicable compliance methods only. These methods are documented performance standards with specific requirements that must be satisfied to qualify for certification with the selected design standard. Both Energy Star® and R-2000® may issue labels for new homes which are qualified through their program however the OBC does not require new home labelling.

J. Declaration

• The declaration takes the place of the completion of the designer form for the purpose of the HVAC design. Through completion of this form and signing of the declaration, the HVAC designer is not required to submit a separate designer information form. Where the designer is an architect or engineer, the declaration confirms the completion of the form and supporting documentation by a qualified professional.

Applicable Law Checklist
This form is authorized by the Township of West Lincoln Building By-law Updated: August 2018
